PROFESSIONAL SUMMARY

Final-year BCA student skilled in Python, React, and SQL databases, with hands-on project experience building chatbots and web applications. Quick learner, adaptable, and eager to contribute to real-world development teams.

EDUCATION

St. Claret College (Autonomous) Jalahalli, Bangalore 2024-2027
Bachelor of Computer Applications | current CGPA : 7.5

TECHNICAL SKILLS

- Programming Languages: Python
- Databases: PostgreSQL, MySQL
- Web Technologies: HTML, React, JSON
- Core Competencies: Application Development, Chatbot Design, Database Management, Front-End Development

PROFESSIONAL EXPERIENCE

TopTech Informatics Pvt. Ltd. Bangalore, India
Intern

- Gained practical exposure to industry-standard software development practices and workflows.
- Applied technical skills to real-world tasks under professional guidance, strengthening problem-solving and collaboration abilities.

PROJECTS

Mediwise | *Healthcare Chatbot*

- Developed a healthcare-focused chatbot application designed to assist users with health-related queries and guidance.
- Implemented core logic and data handling using Python.

MediSummary | *Healthcare Chatbot*

- Built a chatbot tool to summarize and simplify healthcare information for improved user comprehension.
- Focused on clear, structured presentation of medical content.

FocusSphere | *Study Planning Application*

- Designed and developed a study planning application to help users organize academic tasks and track progress.
- Built with a focus on usability and structured task management.

Portfolio | *Personal Website*

- Created a personal portfolio website using HTML to showcase projects, skills, and professional background.

StayScape, Wanderful, and WanderNest | *Airbnb-Style Booking Websites*

- Built a set of three web platforms modeled on Airbnb-style property booking and travel discovery experiences.
- Implemented front-end interfaces and layouts using HTML and React.

RESEARCH & CERTIFICATIONS

- NPTEL Certification — completed an NPTEL course and presented an associated research paper.

CORE STRENGTHS

- Quick and consistent learner, able to pick up new tools and technologies efficiently.
- Highly adaptable to new environments, teams, and project requirements.
- Willing and able to take on a wide range of tasks across the development process.
